

About ISPMNA

The Korea Institute of Nuclear Safety (KINS) and Korean Society of Pressure Vessels & Piping (KPVP) are pleased to host the **6th International Symposium on Probabilistic Methodologies for Nuclear Applications (ISPMNA) on September 15-18, 2026, in Seoul, Korea.**

Since 2013, the Symposium has offered a platform for the nuclear industry and regulators to exchange and discuss the use of probabilistic methods to enhance and complement traditional deterministic regulatory approaches, with the goal of developing more realistic and less overly conservative methodologies.

Topics of Discussion

include (but are not limited to):

- Probabilistic Fracture Mechanics
- Probabilistic Fracture Protection
- Probabilistic Leak Before Break (LBB)
- Uncertainty and Sensitivity Analysis
- Development of Input Parameter Distributions
- Risk-informed Assessments
- Development of Probabilistic Modelling Software

The different topics will be discussed in the context of applications in the nuclear industry. The industry perspective, regulatory context, and academic quality and feasibility of the proposed methods will be discussed.

International Organizing Committee

- Changsik Oh (KINS, Korea)
- Sangmin Lee (KINS, Korea)
- Haruko Sasaki (NRA, Japan)
- Jinya Katsuyama (JAEA, Japan)
- Yinsheng Li (SMNPC, China)
- Dave Rudland (Rudland Consulting, USA)
- Nathan Glunt (EPRI, USA)
- Cédric Sallaberry (Structural Integrity, USA)
- Bogdan Wasiluk (Framatome, USA)
- Blair Carroll (CNSC, Canada)
- Michael Martin (Rolls-Royce, UK)
- Christophe Berre (ONR, UK)
- Klaus Heckmann (GRS, Germany)

Sponsored by

September 15-18, 2026
Seoul, Korea

Registration

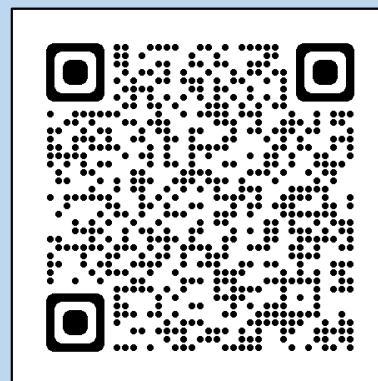

Participants can register through the ISPMNA current website: (<https://ispmna.com>). Authors interested in contributing can submit an abstract (up to 400 words) once registered via the website, using the available template form, no later than May 1, 2026.

Registration is free of charge.

Key Dates

Abstract Submission	February 2 to May 1, 2026 May 31, 2026 (extended)
Notification of Acceptance	Before July 1, 2026
Registration (Presenter)	February 2 to August 3, 2026
Registration (Audience)	February 2 to September 1, 2026
Presentation Submission	July 6 to September 1, 2026
Symposium Dates	September 15 – 18, 2026
